Sprint1 User Stories and Acceptance Criteria

US_ID	User Stories	Acceptance Criteria	Feature	Story Points
US_01	As a patient, I want to upload an image of my skin condition so that I can receive a diagnosis.	The patient can access an interface to upload an image. The patient can select and submit an image from device. The system accepts image files in specified formats, e.g., JPEG, JPG, PNG. The uploaded image is stored and associated with the patient's case. A confirmation message is displayed upon successful upload.	AI Diagnosis	13
US_03	As a patient, I want to receive a diagnosis so that I know the skin issue I am facing	After submitting the image, the patient receives a diagnosis. The diagnosis is presented as the name of the skin condition. The system provides the diagnosis within a reasonable time, e.g., less than 1 min.	AI Diagnosis	20
